## Azerbaijan

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Azerbaijan. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

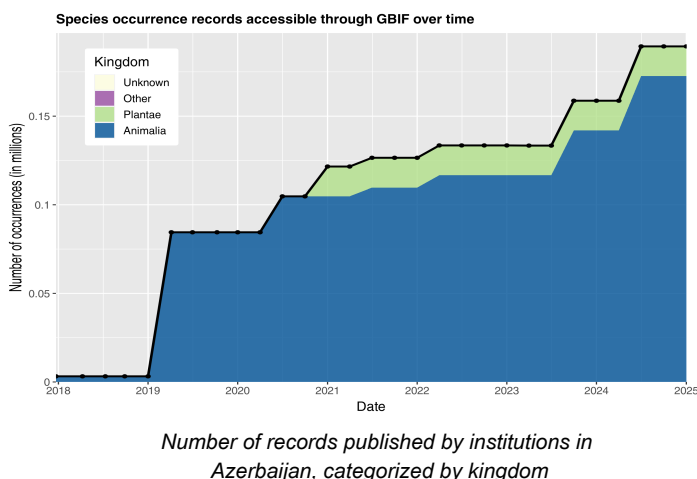

### ► Access and usage

### ► Data availability in Azerbaijan

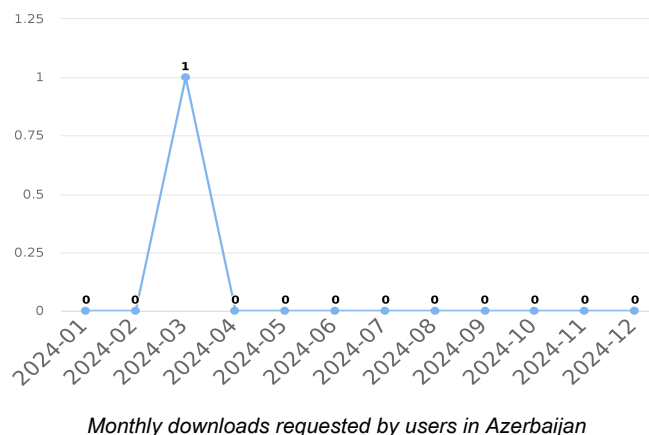

### ► Data mobilization

## Access and usage

### Data downloads on GBIF.org from users in Azerbaijan

### Recent peer-reviewed articles using GBIF-mediated data by co-authors based in Azerbaijan

The GBIF Secretariat maintains and reports on an ongoing literature tracking programme, giving priority to substantive uses of GBIF-mediated data in peer-reviewed literature while identifying the countries or areas of the authors' institutional affiliations. The citations below represent the five most recent journal articles with at least one co-author from Azerbaijan.

Those interested in assisting the Secretariat in identifying additional peer-reviewed uses of GBIF-mediated data may forward relevant citations to [comms@gbif.org](mailto:comms@gbif.org).

## Data availability

### Total data available for selected taxonomic groups in Azerbaijan

**Mammals**  
**1,082**  
occurrences

**Birds**  
**183,471**  
occurrences

**Bony fish**  
**466**  
occurrences

**Amphibians**  
**1,406**  
occurrences

**Insects**  
**11,313**  
occurrences

**Reptiles**  
**1,063**  
occurrences

**Molluscs**  
**580**  
occurrences

**Arachnids**  
**609**  
occurrences

**Flowering plants**  
**75,718**  
occurrences

**Ferns**  
**583**  
occurrences

**Gymnosperms**  
**225**  
occurrences

**Mosses**  
**313**  
occurrences

**Sac fungi**  
**1,620**  
occurrences

**Basidiomycota**  
**884**  
occurrences

Mammals = Class *Mammalia*  
Birds = Class *Aves*  
Bony fish = Superclass  
*Osteichthyes* p.p.  
Amphibians = Class *Amphibia*

Insects = Class *Insecta*  
Reptiles = Class *Testudines*,  
*Sphenodontia*, *Squamata* &  
*Crocodylia*  
Molluscs = Phylum *Mollusca*

Arachnids = Class *Arachnida*  
Flowering plants = Phylum  
*Magnoliophyta*  
Gymnosperms = Superclass  
*Gymnospermae*

Ferns = Phylum *Pteridophyta*  
Mosses = Phylum *Bryophyta*  
Sac fungi = Phylum *Ascomycota*  
Basidiomycota = Phylum  
*Basidiomycota*

### Change over time in records about biodiversity in Azerbaijan

Occurrence records available about species occurring in Azerbaijan

Species for which at least one occurrence record is available in Azerbaijan

#### WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?

Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

**SPECIES COUNTS** represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

## Most recent datasets from publishers in Azerbaijan

Herbarium BAK. *Published by Institute of Botany, Ministry of Science and Education of the Republic of Azerbaijan*

<https://doi.org/10.15468/qs8ef2>

See all datasets from this country or area: [gbif.org/dataset/search?publishing\\_country=AZ](https://gbif.org/dataset/search?publishing_country=AZ)

## Newest publishers from Azerbaijan

Institute of Botany, Ministry of Science and Education of the Republic of Azerbaijan

[gbif.org/publisher/search?country=AZ](https://gbif.org/publisher/search?country=AZ)

## Occurrence records downloaded from GBIF.org, published by institutions in Azerbaijan

Number of occurrence records downloaded via GBIF.org published by institutions in Azerbaijan

## Data mobilization

### Data sharing with country or area of origin by national institutions in Azerbaijan

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within Azerbaijan, with separate colours for records about species occurring within undefined and those occurring elsewhere.

### Top data contributors about biodiversity in Azerbaijan

Rank	Country or area	No. of occurrences
1	Azerbaijan	189,350
2	United Kingdom	21,679
3	Russian Federation	20,026
4	Colombia	14,548
5	International organization or unknown country	14,235
6	United States of America	11,003
7	Netherlands	7,384
8	Estonia	4,643
9	Germany	4,283
10	Austria	2,191

Table 1. Ranking of countries or areas contributing data about Azerbaijan

### Top datasets contributing data about Azerbaijan

EOD – eBird Observation Dataset. 172,646 occurrences in Azerbaijan. (Last updated 27 Sep 2024)

Caspian Sea Sediment - 16S Survey Targeted Locus (Loci). 16,819 occurrences in Azerbaijan. (Last updated 19 Feb 2020)

Herbarium BAK. 16,704 occurrences in Azerbaijan. (Last updated 16 Oct 2020)

Moscow University Herbarium (MW). 15,488 occurrences in Azerbaijan. (Last updated 31 Dec 2024)

A global database for the distributions of crop wild relatives. 14,548 occurrences in Azerbaijan. (Last updated 9 Feb 2024)
