Curaçao
This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Curaçao. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

- Access and usage

Researchers from Curaçao contributed to 0 peer-reviewed articles citing GBIF use during 2023 and a total of 0 articles since 2008.

- Data availability in Curaçao

- Data mobilization

Institutions from Curaçao published 47,278 new occurrence records during 2023 out of a total of 355,993,458 occurrence records added globally to GBIF.org.
Access and usage

Data downloads on GBIF.org from users in Curaçao

Users from Curaçao made 2 download requests representing 0.0% of all downloads during 2023.

Monthly downloads requested by users in Curaçao
Data availability

Total data available for selected taxonomic groups in Curaçao

- **Mammals**: 246 occurrences
- **Birds**: 244,445 occurrences
- **Bony fish**: 9,348 occurrences
- **Amphibians**: 32 occurrences
- **Insects**: 1,969 occurrences
- **Reptiles**: 1,951 occurrences
- **Molluscs**: 2,894 occurrences
- **Arachnids**: 525 occurrences
- **Flowering plants**: 31,020 occurrences
- **Ferns**: 98 occurrences
- **Gymnosperms**: 10 occurrences
- **Mosses**: 5 occurrences
- **Sac fungi**: 54 occurrences
- **Basidiomycota**: 26 occurrences

**Mammals** = Class Mammalia  
**Birds** = Class Aves  
**Bony fish** = Superclass Osteichthyes p.p.  
**Amphibians** = Class Amphibia  
**Insects** = Class Insecta  
**Reptiles** = Class Testudines, Sphenodontia, Squamata & Crocodylia  
**Molluscs** = Phylum Mollusca  
**Arachnids** = Class Arachnida  
**Flowering plants** = Phylum Magnoliophyta  
**Mosses** = Phylum Bryophyta  
**Sac fungi** = Phylum Ascomycota  
**Basidiomycota** = Phylum Basidiomycota

Change over time in records about biodiversity in Curaçao

Species occurrence records accessible through GBIF over time  
Species for which at least one occurrence record is available in Curaçao

**WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?**
Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

**SPECIES COUNTS** represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life.
