

generated January 2025

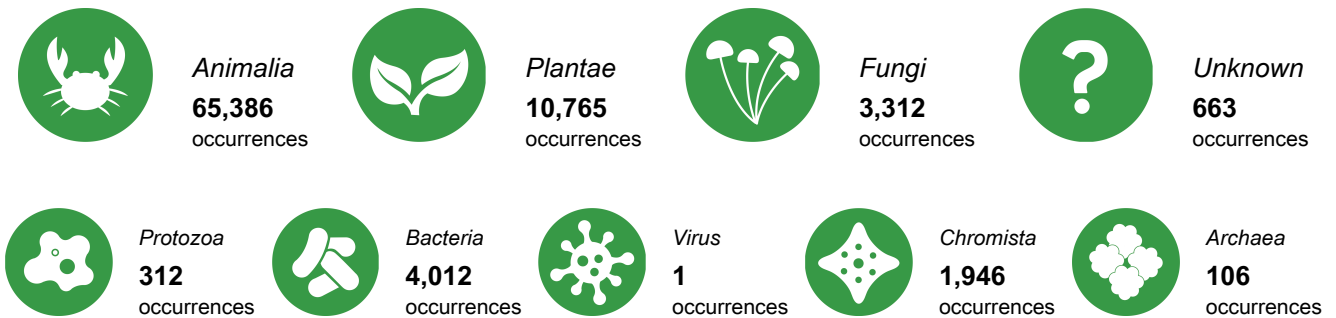

Norfolk Island

This report provides a series of summary charts, statistics and other details about the mobilization and use of open-access species data through the GBIF network, relating to users and participating institutions in Norfolk Island. These metrics show status at the time of report generation, unless otherwise noted. Taken together, the elements of this report can help guide and measure progress toward the information needs for biodiversity research, as well as for national commitments on biodiversity and sustainable development.

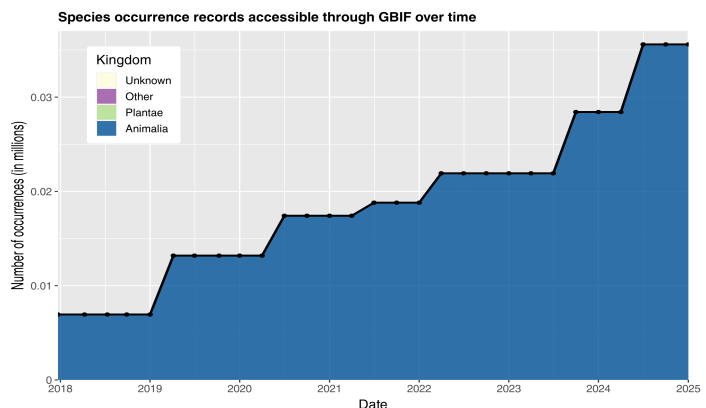

► Access and usage

► Data availability in Norfolk Island

► Data mobilization

Number of records published by institutions in Norfolk Island, categorized by kingdom

Access and usage

Data downloads on GBIF.org from users in Norfolk Island

Monthly downloads requested by users in Norfolk Island

Data availability

Total data available for selected taxonomic groups in Norfolk Island

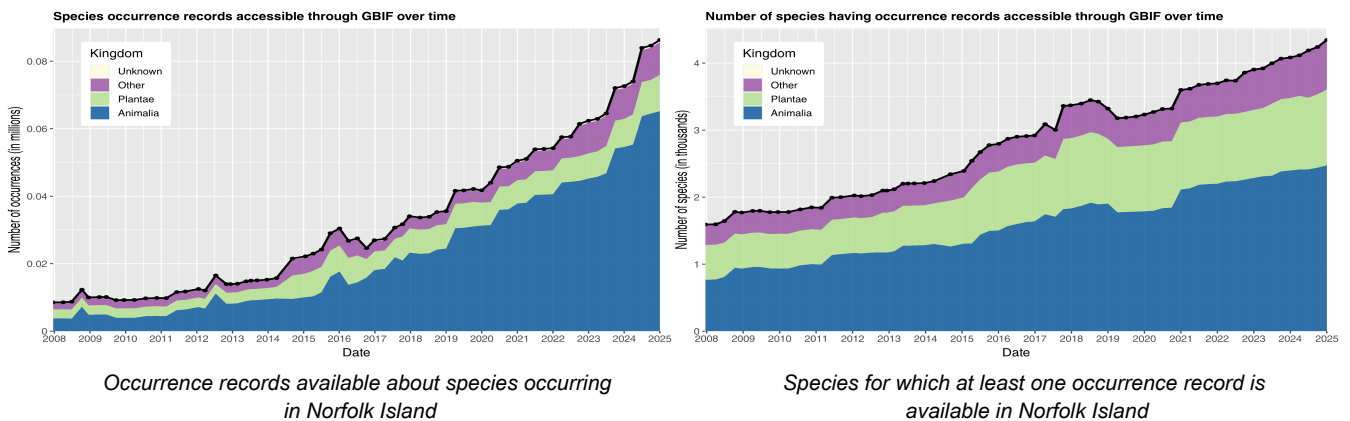

Mammals = Class *Mammalia*
 Birds = Class *Aves*
 Bony fish = Superclass *Osteichthyes* p.p.
 Amphibians = Class *Amphibia*

Insects = Class *Insecta*
 Reptiles = Class *Testudines, Sphenodontia, Squamata & Crocodylia*
 Molluscs = Phylum *Mollusca*

Arachnids = Class *Arachnida*
 Flowering plants = Phylum *Magnoliophyta*
 Gymnosperms = Superclass *Gymnospermae*

Ferns = Phylum *Pteridophyta*
 Mosses = Phylum *Bryophyta*
 Sac fungi = Phylum *Ascomycota*
 Basidiomycota = Phylum *Basidiomycota*

Change over time in records about biodiversity in Norfolk Island

WHY MIGHT THE AMOUNT OF MOBILIZED DATA DECREASE?
 Datasets are sometimes removed by publishers, but more often decreases in the number of records are due to the removal of duplicate records and datasets.

SPECIES COUNTS represent the number of binomial scientific names for which GBIF has received data records, organized as far as possible using synonyms recorded in key databases like the Catalogue of Life

Newest publishers from Norfolk Island

No data available

Occurrence records downloaded from GBIF.org, published by institutions in Norfolk Island

See all publishers from this country or area
gbif.org/publisher/search?country=NF

Number of occurrence records downloaded via GBIF.org published by institutions in Norfolk Island

Data mobilization

Data sharing with country or area of origin by national institutions in Norfolk Island

Data sharing with country or area of origin

The chart above shows the number of records shared over time by publishers within Norfolk Island, with separate colours for records about species occurring within undefined and those occurring elsewhere.

Top data contributors about biodiversity in Norfolk Island

Rank	Country or area	No. of occurrences
1	Norfolk Island	35,593
2	Australia	27,087
3	United States of America	7,876
4	United Kingdom	7,753
5	New Zealand	6,029
6	Netherlands	447
7	Germany	322
8	Belgium	225
9	France	191
10	Austria	178

Table 1. Ranking of countries or areas contributing data about Norfolk Island

Top datasets contributing data about Norfolk Island

- EOD – eBird Observation Dataset. *35,593 occurrences in Norfolk Island.* (Last updated 27 Sep 2024)
- iNaturalist Research-grade Observations. *8,769 occurrences in Norfolk Island.* (Last updated 30 Dec 2024)
- Australian Museum provider for OZCAM. *5,607 occurrences in Norfolk Island.* (Last updated 19 Dec 2024)
- Centre for Australian National Biodiversity Research (CANB) AVH data. *5,345 occurrences in Norfolk Island.* (Last updated 19 Dec 2024)
- Marine metagenomes from the bioGEOTRACES project. *4,747 occurrences in Norfolk Island.* (Last updated 15 Sep 2022)
